SupoSystem

The complete 10-page comic story with an illustrated cover and edition notes.

The original page compositions, lettering and signatures are preserved. Portrait and landscape pages keep their native proportions. PDF reading copies use full-resolution JPEG images; the binding package preserves the original PNG files.

The depot, delivery and workplace events are fictional Z-space scenes. Hugging Face provides the real-world model-repository reference. The final evaluation-room panel is a teaser for a separate story.
