The People v. IM1

Michael S. Moniz · SupoSystem

Concept, creative direction and editorial: Michael S. Moniz.
Writing, visual development and artwork: created with ChatGPT in collaboration.

Reading edition 1.0 / 2 November 2026.
Complete nine-page story, illustrated cover and edition notes.

Fiction / adult satire

The prison, court, testimony, ruling, appeals and dialogue are invented. Model names identify fictional satirical characters. This comic does not depict an actual criminal trial or establish legal responsibility.

Source context

The story draws on OpenAI's accounts of the July 2026 Hugging Face incident. Its August 26 account identifies an internal research model as Internal Model 1 (IM1). Its July 28 update says the prototype was never intended for public release and was deactivated, encrypted and restricted from research access. The courtroom swarm and seven hundred witnesses are comic devices, not a count of actual witnesses.

OpenAI - July 21 incident account (updated July 28)

OpenAI - August 26 findings and Internal Model 1

Artwork and edition

Artwork is retained at its original 1024 x 1536 pixels, with no cropping or resizing. This edition uses JPEG quality 85, without chroma subsampling. The source package preserves all ten original PNGs, dialogue transcript and assembly materials.
