Concept, creative direction and editorial: Michael S. Moniz. Writing, visual development and artwork created with ChatGPT in collaboration.

Third Shift - Six Shorts
Edition 1.0 / November 1, 2026 / Digital reading edition.

Fictional AI-workplace satire for adult readers. Character bodies, dialogue and events are invented. Model names appear as satirical characters; these stories are not model evaluations or capability reports.

Token quantities, prices and allowances in the cartoons are fictional comic devices. They do not specify real provider charges, investment returns or fixed consumption multipliers.

Artwork retained at its original 1024 x 1536 pixel dimensions. This PDF uses JPEG quality 95, without chroma subsampling or pixel resizing. Unmodified PNG originals accompany the source package.
