Concept, creative direction and editorial decisions by Michael S. Moniz.

Writing, visual development and artwork created with ChatGPT in collaboration with Michael.

Edition 1.0 | 1 November 2026
2 comic pages, plus cover material and edition pages.

Fiction / adult AI-workplace satire. Characters, dialogue and events are invented. The alignment labels are fictional character claims, not evaluations of real models. The Z-doom meter is a fictional prop.

Full comic frames and their existing page credits are preserved.
